#### DIMENSIONS

VERSA DT90 KERB TRIM	
Length	2000mm
Standard Profile	40 x 25 x 90 x 12mm
Custom Profile	to order

**Product Description** - VERSA PVC coated metal sheets are cut and fabricated to produce standard and custom roof trim profiles.

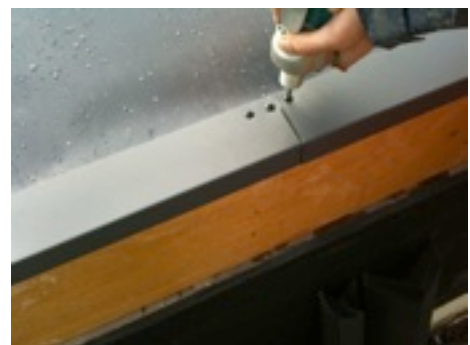

VERSA Roof Trims are used to form a finishing detail at the roof perimeter and at the interface of differing materials.

**Applications** - drip trim into gutter, raised kerb trim, raggle detail trim, cope flashings, gutter linings.

**Method of attachment** - mechanically attached using appropriate fasteners.

Due to our policy of continual improvement we reserve the right to alter specification without prior notice.
